Sub: Details of Sewage Disposal System at GNVS Bussiness School.

Dear Sir,

This is to state that GNVS Bussiness School, at Bhandup (West), Mumbai 400 078, is located within Metropolitan limits of Brihanmumbai and the area has a well-planned and well administered sewage disposal and underground drainage system which is maintained by the Local Municipal Corporation.

GNVS Bussiness School also has its own well designed sewage disposal system within the building premises which gets connected to the main drainage system of the Local Municipal Corporation. Further, we have examined the system and have observed that there are no choke-ups or blockages or leakages in the system and life of human beings is completely safe in the Institute's premises.

Thanking you,

Yours truly,

For, **M/s. Saachi Associates,**
